2550 Gottselig Road Regina

**Interested students will be bussed from Campus Regina Public at 9:10 AM
Lunch will be supplied compliments of HPL**

A CAREER THAT GIVES YOU WHAT YOU WANT FROM LIFE:

Hundseth Power Line Construction (HPL) is an established, growing company that operates in ALL SEASONS. Headquartered in Saskatoon with site offices in Regina and Humboldt, HPL employs over 200 employees. HPL specializes in a variety of areas:

- Electrical Distribution & Transmission;
 - Distribution: constructs, maintains, and repairs powerlines
 - Transmission: a direct service provider to the customers within the operating region constructing high voltage transmission powerlines to customer specifications
- Underground utility installations: plows and installs underground utility services for fibre-optic cabling and gas;
- Telecommunications: construction and maintenance of communication lines;
- 4-Party Services (multiple utilities);
- Hydrovac & Directional Boring;
- Fleet services: certified licensed mechanics which complete maintenance on all types of equipment.

HPL is looking for people with a positive attitude and strong work ethic to help them continue providing industry leading service to their large host of clients across Saskatchewan. Many HPL positions involve working outside, so at this spotlight students will experience the life of a typical HPL employee by: **climbing a pole with safety gear and spurs, operating a mini backhoe, ride in a bucket truck and visiting a working crew onsite.**

[Interested Grade 12 students can bring along their resumes](#)
