

Machining CAREER CONNECTION

STUDENT PERMISSION FORM

Regina District Industry Education Council (RDIEC) represents Regina Public School Division, Regina Catholic School Division, Prairie Valley School Division and File Hills Qu'Appelle Tribal Council. The RDIEC's **Career Connections** program provides an opportunity for interested Grade 10-12 students to obtain entry level skills and industry recognized safety training certification. Participating students also have the opportunity to obtain a high school credit upon completion of the work experience component. This program involves 3 steps. The first 2 steps are mandatory for any student wanting to attend a **Career Connection**. For more information about Career Connections, please visit www.RDIEC.ca

1) Skill Acquisition 25 hours (Mandatory)	2) Career Safety Education 25 hours (Mandatory)	3) Career Work Exploration High School Credit(CWEX) 50 hours (Optional)
<p>This is an introduction to the career area and basic skill development. This can be anywhere from a 25 hour commitment. During this phase, the students will acquire industry specific entry level skills in the career highlighted. During the last hours of this experience, potential employers from industry will be invited in to meet the students and view the skills they have learned. The benefit to industry is to identify students that may have a skill set conducive to employment with them.</p>	<p>Students will have to complete the following:</p> <p>a) Young Workers Readiness Certificate, WHMIS 2015, Mental Health Wellness Training, **</p> <p>b) Hearing Protection & Respiratory Protection Training</p> <p>c) SCOT (Safety Construction Orientation Training)</p> <p>**DUE Dec. 2, 2022. To COMPLETE the courses go to www.sasksafety.org/training/youth/career-safety-education</p> <p>SCOT Training**DUE Dec. 2, 2022 to earn your Career Safety Education Certificate. To complete these visit www.scsaonline.ca A pin number will be given to you at the beginning of the first session.</p>	<p>If students want to continue this program, there is the option for them to complete a work experience placement related to the skills they acquired and earn a Career and Work Experience credit (CWEX) on their high school transcript. The total time commitment must be 100 hours. In order for students to be able to access this opportunity, they must complete all the skill acquisition and safety training.</p>

This connection will focus on **Machining** at Saskatchewan Polytechnic Regina Campus. Students should be interested in the skilled trades and have time in their personal schedules to fulfill the commitment of this program. Students must dress appropriately for working in this industry. **Steel toed boots required.**

Interested students will have the opportunity to learn about the Machining trade. Students will meet at **Saskatchewan Polytechnic Regina Campus** for each of their skill building sessions. **The program runs for 5 Fridays with the first one on Friday, November 4 from 1-6 pm and the last session is on Friday, December 9.** Students must arrive 10 minutes prior to the session starting.

The Career Safety Education Program is offered by the Saskatchewan Safety Council in partnership with WorkSafe Saskatchewan. **Students will complete the Career Safety Education online at no cost.** The value of the Safety Training is approximately \$250.
