

# W.I.T.T. STEM Career Exploration PERMISSION FORM

Regina District Industry Education Council (RDIEC) represents Regina Public School Division, Regina Catholic School Division, Prairie Valley School Division and File Hills Qu'Appelle Tribal Council. The RDIEC organizes and promotes programs which provide an opportunity for interested Grade 9-12's to obtain information about a specific career area. RDIEC also proudly works with other educational partners, such as Saskatchewan Polytechnic. This is an event which RDIEC is promoting, not organizing. The presenters indicate to the students what they do in their jobs, why they got involved in their profession and what they perceive to be the challenges and rewards of their occupation. The students are then involved in an activity which demonstrates some aspect of the presenters' work world and/or a tour of the facility. For more information about upcoming W.I.T.T. STEM Career Exploration Workshops, please visit [www.RDIEC.ca](http://www.RDIEC.ca)

These W.I.T.T. Exploratory STEM events will focus on the trades of **Civil Engineering Technologies/Environmental Engineering** (May 3<sup>rd</sup>) and **Architectural Technologies/Engineering Design and Drafting Technology (EDDT)** (May 4<sup>th</sup>).

The students will have an opportunity to spend time at Moose Jaw Sask Polytechnic training facilities. Trainers will explain the type of work that they do and speak to career pathway entrance requirements, career opportunities, salary expectations and working conditions. Furthermore, the students will experience hands-on activities related to each of these SaskPolytechnic programs.

**\*\*PLEASE NOTE:** There is no bus booked for this event. Transportation is up to student participants and their parents/Guardians. The school will allow students to attend, and the absence will be excused but students are responsible for all material missed in class that day. If you have any questions or concerns, please feel free to contact [mark.edmonds@rdiec.ca](mailto:mark.edmonds@rdiec.ca) or 306-531-3892. Your student has expressed an interest in attending the following W.I.T.T. STEM Career Exploration.
